The Child-Safe Mobile Network

Peace of Mind in a SIM Card

> Every child is excited to get their **first smartphone** and ParentShield have given me the confidence to let this happen, knowing that my granddaughter is **as safe as possible.** Very comforting in a world where there are people who are unkind or dangerous. She's so excited to be getting her phone - I'm enjoying it too and know she is protected .

ParentShield Features

ParentShield features can only be accessed by the account holder via a secure online account. The child has no way of accessing the recordings or changing the settings.

Record All Calls

All calls are recorded and stored in an online portal where they can be listened to and downloaded.

Record All Texts

All text messages are recorded and stored in an online portal for review.

Word Alerts

Be alerted when the child sends or receives inappropriate words in their texts.

Unlimited Calls Home

The child will always be able to contact Home, even when they've hit their set usage limit.

Spending Controls

The account holder has full control over how much can be spent each month.

Time Controls

Take full control over the times that your child can talk, text or use mobile data.

Mobile Data Controls

Turn mobile data connections off at the flick of a switch from within the portal.

Ultra-Secure Mode

Take full control over who can contact and be contacted by the child.

The Child-Safe Mobile Network

We also include the following features to ensure your peace of mind.

Network Roaming: The SIM connects to the strongest Network nearby.
Block Numbers: You can block any number from your online account.
Anonymous Blocking: Withheld numbers can also be blocked.
No Premium Numbers: All premium rate numbers, competition, and donation short code numbers are blocked.

Portal Guide

Every ParentShield SIM is linked to a secure online account, that only the account holder can access. We will give you a quick overview of the portal and how you can use our child protection settings in the best way for the child/ren in your care.

DATA

OFF

Phone requires wi-fi for data connection.

DATA BUDGETING

OFF

When enabled, this allows data to be limited on a daily rather than monthly basis.

Under the 'data' tab you can choose whether you'd like to turn mobile data off, or budget data on a daily basis. There is also a data usage tracker so that you can be aware of how much internet data is being used on the device.

Here you can turn the time-restricted mode on, and choose hours for the SIM to be active. This can be great for limiting phone time. We also have the option to turn on 'block during school hours' so that you can be sure your child has fewer distractions during class.

You can also choose to turn 'ultra-secure' mode on or off within this area. This mode ensures that the SIM can only call or text the numbers that have been set as 'home numbers'.
